Seafield's flagship North West location

Posted: Monday, June 20, 2011 11:27 am

Seafield Logistics are now just awaiting the finishing touches for the completion of its brand new Winsford depot which will be able to serve its substantial customer base in Cheshire and the surrounding areas.

The 45,000 sq ft warehouse at Premier Park in Winsford, complete with brand new racking has the ability to store over 4,600 pallets. Currently there is a mixture of pallet types—pallets of 25kg bags and large bags weighing up to 1300kgs stored on behalf of Tata Chemicals.

An official open day will be held on Tuesday 21st June 2011 and Seafield Management and staff have invited their major customers, suppliers and contacts to celebrate the official opening of the site.

Some of Seafield's main suppliers such as Frater Trailer Hire, Bennion Commercial Repairs, Gardner Denver, TIP Europe, European Communications, JML Hendersons and Mend a Hose Hydraulics will be attending the event and will have the opportunity to showcase their products or services.

The new site will give Seafield Logistics a flagship location in the North West and an ideal platform to grow the business being one of Seafield's 18 operating sites throughout the UK, other examples being Worksop, Aylesham and Guyhirn.
