

More space at storage company

A STORAGE company has redeveloped its site at Aylesham.

Seafield's new 50,000 sq ft warehouse in Cooting Road replaces several smaller buildings and includes a two-storey office block.

A ribbon to declare the site open was cut by Graham Tonks, the logistics manager of packaging firm Interpack which rents 75 per cent of the space at the warehouse.

Mark Strong, the managing director of Seafield, said: "As a third party warehouse, this is unique to Aylesham and the surrounding area."
