

Storage solution

SEAFIED Logistics has come to the rescue of Wilkinson, the high street retailer, when it ran shortage of storage space.

Wilkinsons had already taken space at one of Seafield's sites in Worksop but needed further capacity at short notice.

Wilkinsons, which has one of its two main distribution centres at Worksop, needed another 200,000sq ft nearby for hardware and food products.

Seafield did not readily have so much spare capacity but managing director Mark Strong put together a deal which met Wilkinsons' needs – and meant considerable savings for another customer who freed up space for them.
