

SEAFIELD LOGISTICS

FROM FIELD TO TABLE - A LOGISTICS SOLUTION FOR YOU!

SEAFIELD LOGISTICS IS A RAPIDLY EXPANDING THIRD PARTY SUPPLY CHAIN SPECIALIST COMMITTED TO PROVIDING EXCELLENCE IN LOGISTICS FOR ITS CUSTOMERS.

Whether it be warehousing, distribution or a full third party logistics service, Seafield can tailor a solution to meet your requirements.

The company was formed in the late 70's and early 80's when previous owners began by acquiring a number of small local hauliers and began to build up a national network. This process has continued in recent history by the acquisition of the Thompson Martin Group and the Ken Thomas Group of companies.

Gradually this originally disparate group has been pulled together to create a more cohesive unit using standard processes and

measurements and introducing a common IT system for finance, human resources, transport planning and warehousing.

As a result we now have a million square feet of warehousing and operate from 8 premises of our own and 12 customer premises. We have been striving to offer an excellent standard of service to our customers, taking advantage of the benefits of scale while still retaining our 'local' image with all of our existing customers. Currently our turnover is around £26 million - not huge but big enough to cope and small enough to care as they say.

We offer a good quality service, linked with flexibility and reliability. Every contract is equally important to us and gets treated equally. We endeavour to be flexible and creative in our solutions and offer an appropriate charging approach according to the work and the customer - nothing is set in concrete. We currently work with a number of companies in the food industry - including Premier Foods, Kinnerton Confectionery and Nestle Purina Petcare. For Premier Foods, we support their factory in Worksop by holding a wide variety of their raw materials to keep the factory running. These come either from Premier Foods or a supplier and are stored by us and called off as required. We have a great relationship with this factory, with whom we have worked for about 40 years. In the case of Purina, we take in product and keep it until it has been quality assured and

repackaged and then move it on to their bulk warehouse. We also offer value added services such as re-labelling, promotion pack assembly and point of sale materials management. We pride ourselves on our quality of service, our friendly and flexible attitude to all our customers and our willingness to go that extra mile to win the business. For these reasons, we believe that we have much to offer the food and drink industry as a caring supplier.
